**APPLICATION AND USER AGREEMENT FOR SERVICE WITH
PUBLIC WATER SUPPLY DISTRICT NO. 1 OF MCDONALD COUNTY, MISSOURI**

The undersigned, being the owner or occupier of land located within the boundaries of Public Water Supply District No. 1 of McDonald County, Missouri, hereafter referred to as "District", hereby makes application to said District for water or sewer service connection, and if such service is made available by said District, agrees to the following conditions, and for such service as designated hereafter:

1. To pay a minimum monthly charge for either water or sewer or both, from the time service is made available by the District, and pay for additional water or sewer usage used at the rate set out in the rate schedule adopted by the Board of Directors of the District. Any changes made in the minimum monthly charges and rate schedules by the Board of Directors of the District shall become a part of this agreement as though fully set out herein.
2. The Rules and Regulations of the District provide that users remit payments monthly; Users will remit the payment of the current month's billing, no later than the 20th of the month. **Payments for current month billing not received by the 20th of the month shall be charged an additional \$15.00 late fee. Failure to pay the current month billing by the last day of the month for which the bill is due shall result in discontinuance of all services. All monies due the District for any water/sewer usage plus any and all fees, along with a reconnect fee of \$100.00 will have to be paid in full to restore services.**
3. Services supplied by the District shall be for the sole use of the undersigned; the undersigned agrees that he/she will not extend or permit the extension of pipes for the purpose of transferring water or sewage from one property to another, nor will he/she share, resell, or sub-meter services to any other consumer. **Each meter service shall supply or remove water or sewage to only ONE residence or business establishment located on land within the District.** Said service meter or meters will not be used as a shut-off valve for service by customer. It is recommended that existing structure's have a shut-off valve at the residence or building. All new construction and/or remodel will be required to install a shut-off valve at the structure. At no time should anyone other than employees of the District have access to such service or meter. If at any time there is damage to said service and/or meter, and the damage is deemed to be customer's responsibility, customer will be billed for all repair costs including but not limited to parts and labor.
4. The undersigned agrees that he/she will make no physical connection without a state approved anti-backflow device between any private water system and the water system of the District. Representatives of the District may at any reasonable time come on the premises where services are being used for the purpose of making inspections to enforce this provision. Violation of this provision shall be grounds for disconnection of service.
5. The laws of the State of Missouri, the By-Laws of the District and the Rules and Regulations of the District, as presently existing, and as may be amended from time to time, are made a part of this agreement as though fully set out herein.
6. The undersigned agrees that he/she will grant easements to the District for the transmission of services over; under and across any interest he may have in real property bounding the roads along which the initial transmission lines of the District accepting this application shall exist or need to be installed for service.

7. **The undersigned also agrees upon the lead ban in public and private drinking water plumbing.** The purpose of this is to ban the use of lead materials in the public drinking water system and private plumbing connected to the public drinking water system; and to protect residents from lead contamination in the district's public drinking water system and their own private plumbing systems. This shall apply to all premises served by the public drinking water of the district's drinking water system or private plumbing connected to the district's system. The cooperation of all consumers is required to implement the lead ban. If, in the judgment of the water purveyor or his authorized representative, lead base materials have been used in new construction or modification after January 1, 1989, due notice shall be given to the consumer. The consumer shall immediately comply by having the lead base materials removed from the plumbing system, or the water purveyor shall have the right to discontinue water service to the premises. The following definitions shall apply in the interpretation and enforcement of this policy. 1. "Consumer" means the owner or person in control of any premises supplied by or in any manner connected to a public water system; 2. "Lead base materials" means any material containing lead in excess of the quantities specified as follows: 3. "Lead free" means; (A) When used with respect to solder and flux, refers to solders and flux containing not more than 0.2 percent; and (B) When used with respect to pipes and pipe fittings, refers to pipes and pipe fittings containing not more than eight percent lead. 4. "Public drinking water system" means any publicly or privately owned water system supplying water to the general public which is satisfactory for drinking, culinary and domestic purpose and meets the requirements of the Missouri Department of Natural Resources; and 5. "Water purveyor" means the owner, operator, or individual in responsible charge of a public water system. No water service connection will be installed or maintained to any premises where lead base materials were used in new construction or modifications of the drinking water plumbing after January 1, 1989. If a premise is found to be in violation, water service shall be discontinued until such time that the drinking water plumbing is lead free.
